

Sligo Creek Golf Association

Our Vision and Commitment for Sligo Creek Golf Course

The purpose of the Sligo Creek Golf Association is to preserve, promote and enhance Sligo Creek Golf Course as a golf course to serve novice golfers, low and moderate-income residents, seniors, and golfers with special needs while protecting the environment and the neighborhood.

Our Association will work constructively with public officials, golfers, neighbors and community groups to ensure that Sligo Creek remains open for all to enjoy.

We envision a golf course where disabled veterans can feel as at home as First Tee golfers, the members of the Sligo Ladies League, and workers looking to play a quick 9 holes after a long day on the job.

We envision a golf course where pesticide use has been minimized, where native plants and butterfly gardens enhance the natural beauty and where native wildlife is protected.

We envision a golf course where people learn about golf and protecting the environment.

We envision a golf course in harmony with its neighbors, with no invading lights or excessive traffic to disturb their peace.

We are prepared to organize volunteers to plant flowers, dig rain gardens and cut vines.

We are prepared as a 501c3 organization to raise tax-deductible contributions to support projects that enhance the golf course.

We are prepared to engage in direct marketing efforts and cooperative efforts with area businesses and community groups to bring new customers and sources of revenues to Sligo Creek Golf Course.
